Wedding Video Information

Dave McKnew has been producing videos since 1993! He has created documentary's, how to, music, events, book preview type videos of all kinds, please visit our "viewing room" for sample videos. He has been married for almost 30 years and have 2 girls, Lauren 24 and Mindy 20.

A wedding video is a family heirloom and should be produced as such. A husband & wife should be able to view their wedding day DVD and be able to relive the moments that went by so fast. Preparing for the ceremony, seeing each other for the first time before walking down the aisle, hearing each other say their vows, exchanging of rings, the Kiss, family and friends enjoying their reception. A wedding video should be videotaped in a creative way with artistic flare. If you have to grab a tissue

box to dry your eye, then I have done my job.

First of all, THANK YOU for considering me, any questions please call 360 813-5680. Below is my contract form, description of our Videography package, prices with contact info. I am also including my video questionnaire form that I use to help me produce a wedding video that matches your personal tastes. It asks questions about the music you like, video effects to use, how you want the video to look & feel, etc... When I receive the contract, deposit, & questionnaire, I'll permanently mark you in for your wedding date so that no one else can reserve the date.

This is what we offer!
